Jessica Bizer exhibits her contemporary paintings at The Basement in downtown St. Petersburg this month. Catch an opening reception May 11 during Second Saturday Art Walk.

The Basement

Gone All Day: Paintings and Installation by Jessica Bizer

A New Orleans based artist by way of St. Pete, Jessica Bizer is the subject of a solo exhibit at The Basement Gallery. Bizer's expertly crafted abstract paintings are executed through a variety of materials: acrylic, airbrush, even marker and pencil at times. Her paintings and, perhaps even more so, her installations juxtapose the ordinary and fantastic as a way of reflecting on real and digital existences. Possibly more intriguing, though, is Bizer's handling of abstract painting. Her palette, combination of hard and soft edges, and composition reflect some exciting developments in contemporary painting. Don't miss the chance to catch the work of this artist while she's back in town.
